Don Davis 2002

Guyana
February 4 to March 4, 2002

Don designed collapsible,
aluminum moth traps for field
work (white arrow)

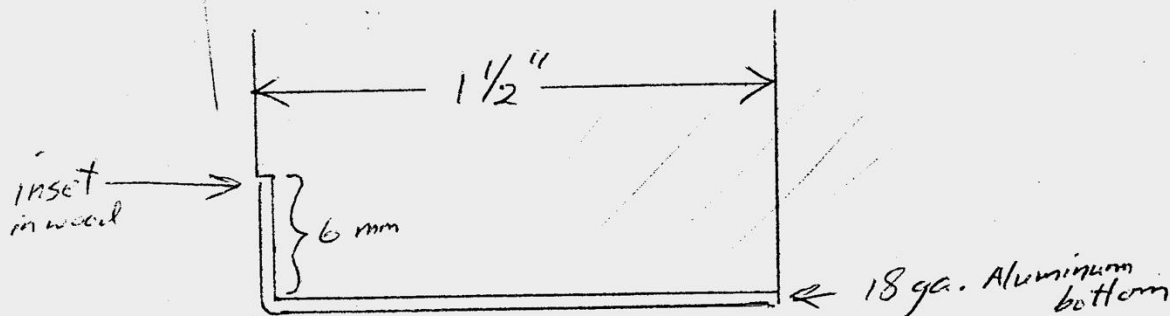

Don's plans for spreading boards to fit tightly into aluminum boxes for field work with the ability to travel with moths on spreading boards and to put the moths out in the sun to set/dry.

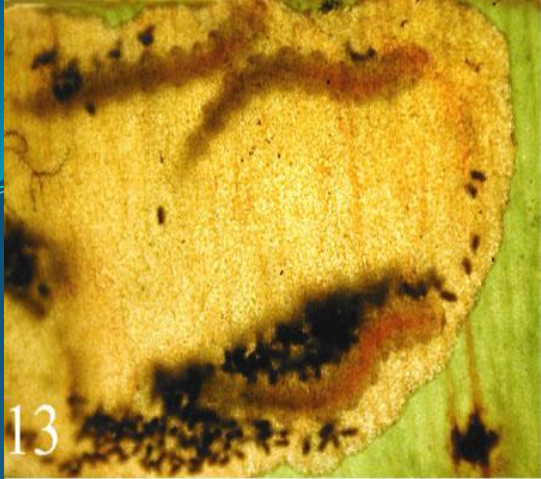

spreading boards

D.R. Davis Ent.

band aluminum bottom around one side, 6 mm high, on 1 1/2" wide spreading boards only
